PUBLICATIONS

Monograph:

Citizenship and the Pursuit of the Worthy Life. Cambridge University Press, 2014.

“It is commonly held by political philosophers and theologians that the ethical principles that guide one in one’s attempt to live a worthy human life should not be decisive for what one does in one’s role as citizen; that role, so it is said, has its own distinct principles and source of principles. David Thunder makes the most detailed and powerful case anyone has yet made against this separationist thesis and in support of the opposing integrationist thesis: that we should give our deepest ethical commitments full play in what we do as citizens. Not only does personal ethical integrity require it; liberal democracy is in danger if citizens wall off the role of citizen from the norms and values that make for a worthy human life. *Citizenship and the Pursuit of the Worthy Life* is the ‘against the grain’ book that those of us who do not buy the separationist thesis have long been looking for.”

Sovereign Rule and the Still-Birth of Republican Freedom: A Preface to Confederal Republicanism

Most modern political theorists fail to grasp the intimate dependence of human freedom on the complex organization and culture of a wide range of intersecting, parallel, and nested social groups. It is this theoretical blindspot, I argue, driven by a reductively individualist social ontology, that leads a wide range of modern political thinkers, including neo-Roman republicans, classical liberals, and welfare liberals, to view the State, rather than social groups, as the primary guarantor of social order and freedom. Once we reject this individualistic approach, we can more adequately investigate what sort of institutional and cultural conditions are likely to support citizens’ access to opportunities for rational self-government and personal and group flourishing. This is precisely the task I set myself in this book, starting out from a neo-Aristotelian conception of freedom as rational self-direction in the service of the good.
